

6 Rich Anti-aging Moisturiser

For Normal to Dry Skin

Packed with nourishing, natural certified organic oils, powerful antioxidants and effective vitamins as well as natural moisturising factors that leave the skin soft and smooth. With twice daily use, dry skin is gently nourished and rejuvenated. Excellent results are visible in less than four weeks.

Application

For Normal Skin:

- Apply as a night cream.
- Smooth gently over entire face, neck and décolletage.
- Apply Duo Eye Gel #3, followed by Triple Action Booster #4, & Liquid Gold Serum #5, before applying Moisturiser #6.

For Dry Skin:

- Apply twice a day
- Smooth gently over entire face, neck and décolletage.
- *Morning:* Apply Duo Eye Gel #3, followed by Triple Action Booster #4, before applying Moisturiser #6.
- *Evening:* Apply Duo Eye Gel #3, followed by Triple Action Booster #4, & Liquid Gold Serum #5, before applying Moisturiser #6.

Key Active Ingredients

- The **Fruit Acid** blend of 5 natural alpha hydroxy acids (AHAs) help to remove dead skin cells, thereby revealing new healthy and younger skin cells so that skin glows.
- **Collagen** is a powerful moisturiser and softens the skin dramatically. Extra pure Halal grade Collagen is used in JK Secret formulations.
- **Natural Oils** which are abundant in vitamins and minerals are used for their excellent nourishing properties. Where available Certified Organic oils are used. **Apricot Kernel, Avocado, Jojoba, Grapeseed and Rosehip oils** are especially good emollients for dry skin.
- **Shea butter** is an emollient that leaves the skin silky smooth.
- **Certified Organic Evening Primrose Oil (EPO)** is rich in essential gamma linolenic acid (GLA) which helps to relieve dryness and itching. **EPO** has been found to be especially helpful for people who suffer from conditions such as eczema.
- **Vitamin E** is a potent antioxidant and helps the skin to heal faster, especially areas with blemishes and scarring.
- **Vitamin C** acts as an antioxidant and is essential to boost the skin's own ability to produce new healthy collagen.
- **Allantoin** helps to soothe and calm the skin. It is good for sensitive and irritated skin.
- **Green Tea** leaves from the tea plant (*Camellia sinensis*) are minimally processed and therefore retain their high levels of antioxidants.
- **Sodium PCA** is a natural component found in your skin (known as Natural Moisturising Factors). It is a very good water-binding agent. This helps to prevent dehydration of the skin cells and creates the smooth, non-flaky appearance of healthy skin.
